How do I reset my controller after a fault shutdown?

Always identify and correct the cause of a fault shutdown before resetting the controller. Check the fault message displayed on the controller to identify and correct the fault condition before proceeding. Contact an authorized distributor/dealer for service, if necessary.

Press the OFF button to reset the controller or follow the procedure below:

- **1.** While the fault message is displayed, press the Select button to go to the Overview menu.
- 2. Press Select again. The active fault message is displayed.
- 3. Press Select. Confirm Clear Fault: NO is displayed.
- **4.** Press the Down arrow button. Confirm Clear Fault: YES is displayed.
- **5.** Press the Select button to enter YES and clear the fault.
- **6.** Press the Select button to return to the overview menu. The controller changes to OFF mode.
- **7.** Press AUTO to put the generator set into automatic mode.
